Remarks at the Dinner for the America's Cup Crews,  
September 14 1962"— John F. Kennedy

“We are tied to the ocean. And when we go back to the sea, whether it is to sail or to watch - we are going back from whence we came.”

**Blue, blue, blue into the blue...**

**Planet Ocean; World of Water...**

**Life Giver; Life Sustainer...**

John F. Kennedy:

*"I really don't know why it is that all of us are so committed to the sea, except I think it's because in addition to the fact that the sea changes, and the light changes, and ships change, it's because we all came from the sea. And it is an interesting biological fact that all of us have in our veins the exact same percentage of salt in our blood that exists in the ocean, and, therefore, we have salt in our blood, in our sweat, in our tears. We are tied to the ocean. And when we go back to the sea - whether it is to sail or to watch it - we are going back from whence we came.[Remarks at the Dinner for the America's Cup Crews, September 14 1962]"— John F. Kennedy*

The salt of the sea is coursing through our veins  
An ancient broth with a long-forgotten name  
It's in our sweat and pouring out in our tears  
It's the sailor's lament sung for many years  
We feel the song in our heart when you bring it to life  
It cuts to the bone like the blade of a fisherman's knife
